

Best Practices

- Always listen to the instructor and follow instructions.
- Be kind and encouraging values
- Manage your time and reach the completion of your art project.
- Cooperate and help each other
- Treat all materials with respect with an understanding of the impact on the environment
- Keep all materials in place and organized while being used
- Share the tools and materials in a caring manner
- Be an active participant in setting up and cleaning up after yourself, in your workspace and as a team.
- Be mindful of the materials available at hand that are being shared with others. For example paint, glue, and tape. Avoiding and preventing misuse and waste.
- Use appropriate language
- Be grateful for the gift of learning and, practice taking care of others and the planet

“when you take care of the planet, you are also taking care of the others”
